# The Secret Infection Diagnosis

It's time to uncover something that is part of us right now that won't let us get to where we need to get to.

In the next few sections of this booklet, I will be leaving you to tell yourself a truth only you know. No matter how difficult it is for you, I would want you to make me a promise right now that you will write it down.

Yes, you really have to write it down because together, we will angle down everything that has stopped us from smashing that Big thing.

There are two questions you will answer in this section and I want you to answer it under each category. If at some point the space provided for you can't contain everything you want to write, you're free to attach an extra paper and write it all out.

The most important thing is that you have to write it all out. **Ok?**
